Registration for the symposium

I intend to submit a poster

Please register before
26.02.2010 for the symposium
19.02.2010 for posters –
using a separate form for each person.
Registration fee see “General Information”.

Registration for the symposium

Submission of posters: 19.02.2010

Registration fee see “General Information”.

Participants from the University Erlangen-Nuremberg,
University Duisburg-Essen and Evonik-Degussa are free of charge
University: 200 €  | Industry: 400 €

General Information

Venue
Fraunhofer Institute for Integrated Systems and Device Technology (IISB)
Georg-Waerber-Saal | Schottkystraße 10 | 91058 Erlangen

Registration via fax to +49.9131.852 94 02

Registration Deadline
Registration for the symposium: 26.02.2010
Submission of posters: 19.02.2010

Host + Support

International Symposium on
Disperse Systems for Electronics
March 1–2, 2010
Fraunhofer IISB, Erlangen
This symposium is organized by the Research Training Group 1161, a graduate program that is focused on the development of novel technologies for the reliable production of electronic devices from printable nanoparticulate pastes. The symposium will concentrate on recent advances in synthesis strategies, functionalization and characterization of semiconductor nanoparticles and their processing for the development of new applications in the field of low price flexible electronics.

**Call for papers**

Poster contributions from all fields of nanotechnology are welcome. The poster sessions will be combined with the coffee and lunch breaks. Deadline for registration: 19.02.2010
